HIGH-POWERED, trouble-free performance, and structural strength that resists hard usage under exacting road conditions, are attributes of the reliable Star Car.

New evidence of the remarkable durability of the Star Car and its satisfying economical operation, in every field of human effort, reaches us daily. Following is a typical letter from a Star owner:

"I have driven my Star Touring Car about 100,000 miles over all kinds of roads and lightened the main motor bearings only once — AFTER TRAVELING 50,000 MILES. I have traveled more than 38 miles on each gallon of gasoline since the first thousand miles and use practically no oil, excepting when I change it." CHARLES H. MCKNIGHT, 61st Service Station, Mitchel Field, Long Island, N. Y.

The real cost of an automobile is what you pay for it, plus what it costs to operate it.

Freedom from mechanical trouble and economical use of gas and tires characterize Star performance and stamp it as a leader in delivering low-cost transportation. Ask us to show you.

THE STOMACH IS ONE OF THE MOST IMPORTANT ORGANS OF THE BODY

It prepares the food we eat for digestion, making possible the assimilation of the body building elements. Frequently we abuse this important organ by eating an over-abundance of rich, greasy, highly-seasoned food. The natural consequence of this is to impair the ability of the stomach to properly prepare this food for the assimilative process.

KODOL TABLETS

are compounded especially to assist the stomach to prepare albuminous foods for digestion, thus relieving it of some of the stress and strain imposed upon it. They are pleasant to the taste, and thousands testify to their effectiveness. Kodol Tablets are never sold in bulk. Insist on the genuine. Price 60c and \$1.00 per box.

SUNDAY IS MOTHER'S DAY.

By Wm. M. Schofield.

Mother's Day. How shall we observe it?

How would mother have us observe it?

Our mother went to Heaven more than thirty years ago.

Not far past the meridian of life, he fell a victim to ill health, the result perhaps of family cares too great for her constitution.

Mother bore six sons—just ordinary boys, as great a care as boys usually are.

Mother was not much different from your mother. In her lifetime she would have been pleased to know that she would be remembered more than thirty years after she had gone away.

But our mother like any other mother, in Heaven or on earth, would be constantly in mind—not only on an especial day.

If our mother had been asked about an especial day to honor her and her opinion about a church service in her honor, she would probably have observed, "I know of no scripture to authorize such a church service."

Mother was well informed on the scriptures, not as well as Dad however and the matter would probably have been referred to him.

Mother would be in our mind every day. She would be recalled in the daily incidents and experiences of life. As she was when she left this earth, she would be glad to know that her sayings are remembered, that her words and deeds are as light to our path.

Mother was pleased with little attentions that showed she was in the minds of her boys.

Mother was not as much pleased when her boys bought her a new dress, a piece of jewelry or some candy as she was when a boy showed her some little unexpected attention that grew out of a fervent constant love for her.

Mother showed her present to the neighbors with pride but there was

a difference in her smile and the tenderness of her eyes at the unexpected show of real love.

Mother's boys were forgetful, careless, rude and often made her heart ache.

But when love failed to subdue and admonition to check, Mother resorted to other means.

In their most careless moments Mother's boys respected her authority. She saw that they did and she knew that in Dad she had an ally, potent as long as timber should last. We bless Mother's name for her firmness.

Mother's face was prematurely wrinkled. Did we put any of them there? We have often had a heart ache in thinking of those wrinkles. You boys who have a mother living, smooth out those wrinkles. We wear a white rose at Mothers Day services.

You boys whose mothers live—love those mothers.

Yes, love them. That speaks it all. Constant love does not long forget. It does not make wrinkles nor gray hairs. It will keep mother alive long and it holds the promise of length of days for you.

But the keenest grief that boys can send to their mother's hearts is soft compared to the anguish and heartaches girls can send.

The girl knows mother, they are women alike. The girl knows how to wound and we taught school long enough to know that girls do wound their mothers; cause them heartaches and send them prematurely to their graves.

If Mother's Day awakes memories of Mother, living or dead, that have long been inactive, the day may serve a good purpose.

But let not the love for Mother die. Obey the impulse of love while Mother lives, and cherish Mother in memory after she is gone.

Go to church Sunday. Mother here or in Heaven will be pleased to have you attend church.—Lockhart Post-Register.

were heard on all sides. On the count of three all were supposed to take their first bite—it was also their last bite of that pie.) In their effort to win the contest some took half their pieces of pie in one bite. Varied and indescribable were the expressions which appeared on the faces of the pie-eaters for a moment—then the one word—"MUD"—was hurled from the mud-filled mouths of the Juniors and a mad rush was made for the hydrant in the front yard where a "mud-spitting" instead of "mud-eating" contest was held.

After this the most trying number on the initiation program, especially to the more bashful boys and girls, was given. Each Junior girl, with her hands tied together and extended before her, was made to reach for an apple, which was balanced on the top of a Senior boy's head, and hold it between her wrists. In trying to accomplish this the blushing maiden found herself with her arms about the neck of the Senior boy. This performance was repeated with a senior girl holding the apple and a timid junior boy attempting to grasp the apple. Some of the most timid boys lost their courage entirely and held on to the senior girl like grim death.

After all of this excitement the initiation, that both seniors and juniors had been looking forward to getting the most pleasure from, took place. There were no backsliders or howls of complaint when the lovely salad course, consisting of pineapple and cheese salad, chicken sandwiches, potato chips and olives, and

punch was served. The favors were yellow and white mint cups filled with lemon drops and mints. The place cards featured cupids, proudly wearing college caps, while resting in a bed of flowers.

The choosing of a May Queen and King completed the evening's entertainment. By a secret ballot Miss Alice Muennink was chosen Queen of the May and Mr. George Butts, also of the Junior Class, was chosen as her King. The party ended when the King crowned the Queen, who will reign forever from her yellow and white throne. Thus ended THE SENIOR-JUNIOR Party of 1925.

FEEDING YOUNG STOCK PROFITABLE.

A profit of \$38.34 on a 10-month old beef steer is the record made by Clemens Wurzbach, a Medina County Baby Beef Club Boy, living on the San Geronimo near Cliff, with a Hereford calf.

The calf weighed 710 pounds and was sold to A. C. Thallman, a local butcher May 7th, at 9 cents a pound, bringing gross returns of \$63.90.

The calf was a purebred Hereford of Mr. O. J. Wurzbach's raising. It was placed on feed in September at two months of age. For the first 30 days it was fed 1-4 lb of crushed oats daily. This was increased to 1-2 lb, for the next 30 days and then 1 lb. per day for the next five months. During March and April it consumed 300 pounds of crushed corn. During the feeding period, it ate 90 pounds of cotton seed meal and a quantity of ensilage and sorghum hay. Mr. Wurzbach makes the following estimate of feed cost:

Feed	Value
Crushed oats	\$3.78
Crushed corn	5.89
Cottonseed meal	1.89
Milk consumed	9.00
Hay and ensilage	5.00
Total cost of feed	\$25.56
Sale price of calf	\$63.90
Less cost of feed	25.56
Net	\$38.34

over and above actual feeding costs.

It would seem that a net profit of this amount over the feed bill should afford a fair and profitable return for the labor and time and interest on investment to produce the animal. It was drylot fed altogether, having never seen a rain during its young life to produce green pasture, and was fed over a period of high-priced feed.

Results such as these should teach two valuable lessons.

One is that good blood lines tell. This calf produced on an average a little better than two pounds of flesh every day it lived. Scrub stock will never do that.

The other is the valuable lesson that we have the feeds right here, on our own stock farms, for finishing our animals and fitting them for the market. Only finished animals should go to the market.

When our animals are finished here instead of being sent to the corn belt for that purpose the packing houses will come closer to the cattle, and then shall we see the dawning of a new day for the stockfarmers of the South.

THE RAIN.

Old Jupiter Pluvius has made two feeble efforts to redeem himself the past week—Monday night and Friday morning. Both rains covered but little territory, and as a general proposition, the drouth is still unbroken.

The rain of Friday morning was principally north of town, but .18 of an inch falling in the town. The Northwestern part of the county also fared pretty well. A section through the middle part of the county has yet to be favored.

NEW YORK is building some more of those subways under the ground. No use building any more, people can't find their way out of the ones they got now. There's people down underground in New York that haven't been up for years. New York people are just like a lot of Gophers; every time they see a hole in the ground they grab a nickel and duck for it. If they keep on living underground, in two more generations their children will have fur like a rat.

What's this Subway got to do with 'Bull' Durham?

Nothing.

What do people outside New York care about how New Yorkers live?

Nothing.

But there is an old saying that one half the world don't know how the other half live, so I am telling you how they live, not as an Ad but as a fact. Five million Ground Hogs in New York rush through life missing one Train and being shoved into the next. The real trouble is that they can't smoke 'Bull' Durham down there.

COMMISSIONER OF AGRICULTURE WILL MAKE NO REPORT ON ACREAGE AND CONDITION OF CROPS MAY 1ST, AS ACREAGE WILL NOT BE KNOWN BEFORE JUNE 1ST.

AUSTIN, Texas, April 29, 1925—
Geo. B. Terrell, Commissioner of
Agriculture, issued a statement to-
day in which he declines to give
acreage and condition of crops, as
the acreage cannot be determined
before June 1st. He discusses agri-
cultural possibilities and calls at-
tention to the shortage of feed crops
and urges the planting of more feed
crops and insists that there is plenty
of time yet to make good feed crops
and a bumper cotton crop, if the
seasons are favorable through the
summer. His statement follows:

Drouth Broken.
"Reports from various sections of
the State indicate that good rains
have fallen in more than half of the
State and lighter showers in other
sections. Indications are strong that
the drouth is broken and other sec-
tions will soon be blessed with good
rains."

"Some crops are up, in good con-
dition, and growing nicely since the
recent rains. Grass will now spring
up rapidly and stock water is provid-
ed and the condition of the stock-
men is greatly relieved, and the re-
cent fears of many people have
vanished and confidence has been
largely restored."

The Department of Agriculture
does not deem it advisable to issue
a report on acreage and conditions of
crops at this time, as the acreage can-
not be determined before June 1st,
and so much of the crops have not
been planted that the acreage and
condition would largely be specula-
tive.

Plenty Of Time To Make Feed Crops
"No one should think it too late
to make good feed crops. The corn
belt has plenty of time yet to make
good crops of corn if the rains hold
out through the summer, and since
there has been such an extensive
drouth, it is reasonable to believe
that we will have plenty of rain and
probably too much. The grain sor-
ghums can be planted in May or June
and fine crops made, and every farm-
er should be sure to plant enough
corn or grain sorghum to insure
plenty of feed for the farm and some
to sell."

Large Per Cent Of Farms Fail To Make Enough Feed

"Reports made to this office last
year showed that 62 2-3 per cent of
the farmers failed to make enough
feed. This is a deplorable condition
and should not exist in Texas. The
last census report (1920) showed
that Texas was spending \$50,000,000
a year for feed which could be grown
at home. Our cotton money is spent
for feed and table supplies that
should be raised at home. The rais-
ing of these food and feed supplies
would reduce the production of cot-
ton and raise the price and put more
money in the pocket of the people."

Don't Go Hog Wild On Cotton.

"Texas planted 16,000,000 acres
of cotton last year and made about
4,800,000 bales, requiring almost 3
and 1-2 acres to make a bale, and
many farms required 6 or 7 acres
to make one bale. The cost of pro-
ducing cotton is too high under such
conditions—about 26 cents last year.
We should plant less cotton, plant a
better variety, give it better cultiva-
tion, and produce more per acre at
less cost. This is the essence of good
farming. The Dallas News Cotton
Contest last year proved beyond
question the value of fewer acres and
better cultivation."

Large Acreage Of Cotton Probable

"The extended drouth has curtailed
the planting of corn and many
farmers fear to plant corn so late,
and wheat and oat crops have failed
in some sections, all of which will
encourage the planting of more land
in cotton with the probability that
something like 18,000,000 acres may
be planted in cotton. This, in my
judgment, would be a calamity. If a
bumper crop is made, the price will
be reduced below the cost of produc-
tion, and if we have a wet summer,
the weevil will be destructive and the
large acreage and small yield, with
the loss of feed crops, will bankrupt
the farmers, and cause financial de-
pression in the entire South. With
a cotton crop of 12,000,000 bales we
are sure to get 25 cents or 30 cents
per pound, but with a larger crop
the price will be reduced in propor-
tion to the amount raised above
12,000,000 bales."

"Advertising is not a process
of which you can say at any
time, 'Now we have com-
pleted it. The job is done
and we can stop.' It is a per-
suasive force that must be
continued to be effective."
Let the Anvil Herald help you

SPRING YEARNING.

April 28, 1925.

By E. S. Rieber.

O, Spring, with all thy beauty spared
Our own pleasure is sure to be im-
paired.
For beyond all imagination,
Of all things in creation—
You are most beautiful.

Thou, O, Spring, hast given us
warmth.
Thou hast been grateful thus;
But no rain hast thou given,
No gorgeous cloud hast riven—
We await thee.

With patience great, O, Spring,
We pray for thy return,
For nature cannot learn
Or bring everlasting joy—
We long for thee.

I know one thing else—
Not knowledge learned of books—
The little flowers that in spring we
see
Are hiding in some nooks.
Come back, O, Spring.

I converse with them, O, Spring,
And gently answer they,
"As soon 'twill rain, we bring
A most wonderful flower spray."
Thus they also wait.

And the little bird from the bough
is singing;
But his song is sad,
He is almost mad,
No flower bells are ringing—
He too awaits thee.

And an invalid with folded hands
Reaches out for thee,
Spare not thy magic gift,
I know 'twould be a grand uplift—
To have thee.

But hark! as the poet sings
A music softly rings,
And angels seem to appear from far
and near

And as they speak, I fear,
Though their voices are mild
As that of a child,
But now their voices change—
Listen! 'twas not the angels bold
But raindrops thousands cold.
O, it did rain and rain;
They beat upon the window pane.
And as they beat the clouds did meet,
The rain it poured and the thunder
roared,
And the rain it made—no longer be-
trayed—
The beauty in itself and spring.

Then the flowers sprang forth,
They truly knew thy worth.
Their flowers grew and grew,
And thus they gladdened all.
They are grateful, O, Spring.

The birds, too, gave a rapturous song,
Joyful they and a happy throng,
For beyond all things, life is worth
living
And the songs, they are daily giving
Praise thee.

Thus, the invalid put away his
crutches
And the beauties of nature imbibed;
But still his folded hands he clutches
For, "I am grateful," he cried,
"Yes, grateful to thee."

Just so we all are grateful,
We glory in thy presence.
No longer desires are wishful,
No longer need pretense—
But we are grateful, O, Spring.

ADVERTISING AIDS BOTH.

(Wisconsin State Journal)
Duck eggs are as edible as
the egg of the chicken and are
much larger, but there is
on market for duck eggs. The
explanation for this is given
by the advertising man is that
every time a chicken lays an
egg she cackles all over the
barnyard, proclaiming her
product to the world, but the
duck lays her egg in seclusion
and makes no noise about it.

Business is like the egg.
Some merchants advertise
their goods and sell them.
Other merchants do no adver-
tising and, consequently, lit-
tle business. The wise mer-
chant, when he receives a
shipment of goods which he
knows the public wants, does
not whisper the event down a
bottomless well. He comes
boldly forth in the newspaper
pages and heralds his wares.
When the general store filled
every mercantile need in the
embryo communities there
may not have been much need
for advertising. Only the
bare necessities were obtain-
able, and the consumer had
only the general store at
which to obtain them. All that
has been changed. There has
been specialization in busi-
ness just as there has been in
labor, the professions and in-
dustry and specialization has
brought competition and ex-
pansion.

The inevitable outcome of
the evolution, or revolution,
of business has been the real-
ization by both merchant and
customer that advertising is
as necessary to modern busi-
ness as service. In fact, the
consistent advertising of its
goods in the newspaper is a
part of the service of every
modern store which claims to
serve the public. Let the
Anvil Herald help you with
your advertising.

MENY-FITZSIMON.

A very pretty wedding was solemnized Wednesday, May the sixth, at the St. Louis Catholic Church when Rev. Laurence FitzSimon, brother of the bride, united Mr. Frank Meny and Miss Patricia FitzSimon in the holy bonds of matrimony.

The bride dressed in a powder blue ensemble, with silver accessories, and carrying an arm bouquet of White Carnations, entered on the arm of her brother, Mr. Bernard FitzSimon. They were met at the altar by the groom and his best man, Mr. Hugo Bourquin.

Preceding the bride came the bride's maids, Miss Margaret La Fou and Miss Fannie Bourquin who were dressed in ecru net over peach satin. They wore picture hats and blonde satin slippers and carried arm bouquets of pink carnations.

After the ceremony a sumptuous wedding breakfast was served at the home of the bride. Those present were: The bride and the groom; Mr. and Mrs. Frank S. Meny, parents of the groom, San Antonio, Miss Celestine Meny sister of the groom, Father A. C. Dusean, Father Laurence FitzSimon, Mr. Hugo Bourquin, Miss Margaret La Fou, Houston, Mr. Bernard FitzSimon, Miss Fannie Bourquin, Mr. Homer McGee, Mr. and Mrs. Louis FitzSimon, Mrs. J. F. FitzSimon, mother of the bride, Misses Josephine Brucks, Thelma Kathryn McIlroy and Octavia Davis.

After the breakfast the bride threw her bouquet which was caught by Miss Josephine Brucks. The bridal couple then departed, amid showers of rice, for a brief honeymoon trip East.

Mr. and Mrs. F. J. Meny will be at home at 617 Carolina Street, San Antonio, Texas, after June 1.

Dr. O. B. Taylor, who has been taking treatment from a stomach specialist for several days, goes to San Antonio tomorrow where he will remain several days under the care of the specialist.

MEDINA VOTES IRRIGATION BONDS OF \$2,500,000.

SAN ANTONIO, Texas, May 1.—Voters of Medina irrigation district No. 1, comprising approximately 40,000 acres, lying partly in Bexar, Medina and Atascosa Counties, were unanimous in authorizing issuance of \$2,500,000 in bonds for the purpose of purchasing the irrigation project at Medina Lake and extending the canals and laterals to include the entire acreage at a special election held Wednesday.

Out of a possible seventy-one eligible voters in the district, sixty-one visited the polls. The ten not voting were women who were kept away from the polls on account of the inclement weather.

W. A. Temple, attorney for the C. W. McNear Company of Chicago, interested in the bonds held against the property, said all formalities would be completed and the land would be ready to place in the hands of actual settlers in tracts averaging about forty acres about July 1.

LONGING.

May 1, 1925.

By E. S. Rieber.

Musing of you my children
Is a teacher's good-by thought,
For his musings of you is not men
When memories come back though in
naught.

It's pleasant to have a vacation,
It's pleasant to sit in the shade,
It's pleasant to have a vacation,
When your meager salary is made.

And it's nice to go to the mountain,
And it's nice to go to the spring,
I'd stay there all time at the fountain
If ne'er that school-bell would ring.

And thus we while and while away;
We get tired and we trudge back
home,
We have seen the farmer swing and
sway
His heavy sickle shone.

And after this long,
I long for the school-child's look,
I long and I long and long,
I long for a switch and a book.

A woman well bred and well taught
furnished with additional accom-
plishments of knowledge and be-
havior, is a creature without com-
parison; her society is the emblem
of sublimity; her person is the em-
blem of angelic, and her conversation
heavenly; she is all softness and
sweetness, peace, love, wit, and de-
light. She is every way suitable to
the sublimest wish, and the man that
has such a one to his portion has
nothing to do but to rejoice in her
and be thankful.—Defoe.

LUTHERAN LADIES ENTERTAIN.

The Lutheran Ladies Aid Society
met with Mrs. Ernestina Richter on
Thursday afternoon.

After roll call, an interesting busi-
ness and devotional meeting was
held at the conclusion of which an
hour was spent sewing.

The hostess, assisted by her daugh-
ters, served dainty assorted cakes,
ice tea and coffee to twenty-four
members and guests.

The next meeting will be with Mrs.
Jacob Rothe of Seco.

Friends of Judge Ed de Montel
were happy to welcome him home
from the hospital in San Antonio
Saturday. The Judge went to the
hospital several weeks ago suffering
with a carbuncle on the back of his
neck. Two operations were neces-
sary to remove the infection and he
was a mighty sick man for a while.
His vigorous strength pulled him
through, however, and he is back on
his feet again. Mrs. Montel, who had
been with him in San Antonio,
returned with him, and both are
happy to be again back at home.

A RURAL SCENE.

By Mary O. Davis

A barefoot lass, with quaint
round face
And freckled nose of piquant
grace,
Came tripping down the cool
green dell
To an ancient vine-covered
well.

Summer breezes her brown
curls raised,
And birds with song the
water praised
As she drew up the bucket
near
And quaffed the sparkling
liquid clear.

Then across the sward skipped
away,
Lost in shades of departing
day—
In all the land there's none so
sweet
As a farm lass with bare,
brown feet!

water and stand saucepan on back
of stove to dry out. Beat with fork
or with whisk until light. Add butter
and well-beaten egg, and beat again.
If too stiff a teaspoonful of hot
milk may be added. Drop by tea-
spoonfuls into boiling hot fat. Use
frying basket and do not put in over-
four at a time. Re-heat fat between
each frying. Drain on soft paper and
serve hot, with tartar sauce.

tulated Tapioca, 2 c. milk, 1 t. butter,
1 egg, 1-4 c. sugar, 1-4 t. grated na-
meg, 1-2 c. chopped dates.

Scald the milk in a double boiler
and shake the tapioca into it, stirring
all the time. When it begins to thick-
en, add butter, egg well beaten, sugar
nutmeg and dates. A portion of the
hot milk should be poured on the
egg and returned to double boiler.
Then add other ingredients. Pour
into a buttered pudding dish and
bake in a moderate oven for thirty
minutes. Serve with milk or thin
cream.

MAVERICK SCHOOL GROWS.

The Maverick School in Medina County has been pointed out by the County Superintendent, W. N. Saathoff, as one of the most rapidly advancing of the county. The district has just voted a bond issue of \$24,000.00 to build a schoolhouse of adequate size. The building will be erected at once.

Mrs. J. E. Page is principal of the Maverick School. She has led a rapid development for the past year, having organized a successful Parent-Teachers Association which has just purchased the Encyclopedia Britannica for the school. Then, there is a wide-awake club of boys and girls. The boys raised a baby beef that took prizes at San Antonio and Fort Worth stock shows.

Equipment of the school has been fair, and with the new building there will be a great deal of new equipment which will make the school one of the best supplied rural schools in Texas.

A motor bus has been operated for the past year in transporting the students, and it has proved satis-

DIED.

Jacob Groff died at his home here Friday morning May 1st, 1925, and was laid to rest at St. Louis Catholic Cemetery on Saturday morning after a requiem mass, Rev. Father Heckman performing the last sad rites. Deceased was born near Castroville, April 6, 1856. He was happily married to Miss Mary Anna Schneider, February 18, 1879. This union was blessed with ten children, eight sons, John, Frank, Henry, Robert, Emil, Albert, Charles and Adolph, and two daughters, Mesdames Frank Tschirhart and John I. Mangold. Besides his grief-stricken widow and fatherless children, he is survived by twenty-eight grand-children, four brothers and one sister and a very large number of other near and dear relatives to mourn his untimely demise. A good man has gone to his last reward.

Deceased was a devout Christian, a dutiful and loving husband and father, a law-abiding citizen and a kind and accommodating neighbor, beloved and respected by one and all. A very large concourse of mourning relatives and friends escorted the remains to their last resting place. The members of St. Louis Society of which deceased was an active and esteemed member attended in a body.

We join this entire community in sympathy with the bereaved and grief-stricken ones. May he rest in peace.

Watch Your Daughter!

Dallas, Texas—"After I had the measles I had severe backaches and was very thin. I was all rundown and in a miserable condition. We had two doctors who did me no good. My mother, who had used Dr. Pierce's medicines in her family for years, gave me the 'Golden Medical Discovery' and after taking two bottles my backache stopped and now I am fat and well. I shall always praise Dr. Pierce's Medicine."—Miss Trixie Morrow, 1715 So. Lamar St.

SHOWER.

One of the prettiest events of the season was the shower given in honor of Miss Patricia FitzSimon, a bride of the month, by Misses Josephine Brucks, Fannie Bourquin and Octavia Davis at the home of Mr. and Mrs. Henry Bourquin on April 30th.

The living room was decorated in a color scheme of pink and white. Streamers in these colors were hung from the chandeliers to the four corners of the room and the white curtains were held in place by pink roses. Vases of pink roses were placed on the mantel and the piano. In the dining room the punch bowl was placed in a nest of pink roses and ferns.

The bride's chair, decorated in pink and white, was placed in the corner of the room, to which the honoree was escorted by Miss Elsie Sittre to the strains of Lohengrin's "Wedding March" played by Miss Josephine Brucks.

Mrs. Fritz Rihn sang "At Dawning," and "Love Sends a Little Gift of Roses," accompanied by Miss Brucks.

Next entered Masters Howard and Ralph Haass, dressed in white drawing a wagon draped in pink and white on which was placed a basket representing a big pink rose. In the basket sat little Miss Laura May Schott, dressed in pink organdy piquet in blue, who presented the gift it contained to the honoree. The gifts were then passed among the guests for inspection. There were cut glass dishes and glasses, a lemonade set, cake plates, linens, lingerie, coffee set, sugar and creamer sets, water set, silver and an aluminum kettle filled with the ingredients for the "first meal."

After the presentation of the gifts Miss Thelma Kathryn McIlroy passed the Bride's Book. Advice of a merry and sober sort was written therein.

Refreshments of punch and sandwiches were served to the following: Mesdames Jack Sittre, Joe Rihn, Mattie Geant, Eulah Haass, Henry Schott, Fritz Rihn, Henry Bourquin, and Mrs. J. T. FitzSimon, mother of the bride-to-be; Misses Pauline Hutzler, Lenora Marty, Dolphia Haby, Theresa Hans, Clara Hans, Elsie Sittre, Evelyn Sittre, Winnie and Alberta Geant, Rosa Mangold, Martha Kempf, little Miss Laura Mae Schott, and Masters Ralph and Howard Haass, the honoree, Miss Patricia FitzSimon, and the hostesses, Misses Josephine Brucks, Fannie Bourquin and Octavia Davis, who toasted the bride with an acrostic in verse.

The out-of-town guests were: Miss Jane Lerrell of San Antonio, and Miss Thelma Kathryn McIlroy of Amarillo.

Gifts were sent by the following who were not present: Mrs. R. L. Burrell, Misses Minnie Haby and Leontina Rihn and Mrs. Fletcher Davis of Hondo.
